EA SPORTS

EA SPORTS PGA TOUR

Madden NFL 26

TWS INVENTORS OF PLAY

Gods of Luxor / Gold Rush Gus

Cyberpunk City / Andar Bahar

GENERA GAMES

Skull Towers / Xtreme Racing 2

PROFESSIONAL EXPERIENCE

EA SPORTS

Senior Game Designer / Madrid

Jul 2021 - Jul 2026

- Owned PGA TOUR player progression and skill growth: level tables, XP formulas, Skill Points and long-term player builds.
- Designed ball-striking gameplay and UI systems, defining new shot interactions and how their state and feedback appeared in play.
- Designed Sphere of Influence for Madden NFL 26: player choices shaped relationships, trust, rewards and narrative paths.
- Created Superstar Showdown live events and rewards; designed Madden NFL 27 Battle Pass structure and planned new narrative systems.
- Built data-driven progression and content pipelines across PGA TOUR and Madden; shipped PGA TOUR after three years of remote development.

TWS INVENTORS OF PLAY

Game Designer / Málaga

Dec 2017 - Jun 2020

- Designed systems for 11 published casino titles spanning slots, card games and roulette.
- Used probability models and player research to define rules, RNG behaviour, rewards and balance.
- Built Unity prototypes and C# simulations to test feasibility, mathematical profiles and pacing.
- Wrote GDDs turning game rules, flows and reward logic into implementation requirements.

GENERA GAMES

Junior Game Designer / Seville

Oct 2015 - Jun 2017

- Reworked F2P mobile core loops and progression around retention and monetisation.
- Designed and balanced Unity gameplay, levels and tutorials across racing, runners, puzzles and tower defence.
- Tuned reward pacing and difficulty through playtesting and player-behaviour analytics.
